# The Honors College is pleased to announce the launch of its SuperStudio!

*Empowers students to engage in the transdisciplinary and massively-collaborative work they will need to employ as professionals and citizens to address critical 21st century issues.*

In Spring 2020, the SuperStudio will harness the work of five advanced courses to examine the challenges and potentials of **THE GREEN NEW DEAL**, an emerging framework for addressing interconnected crises in climate change and economic inequality.

**There are no prerequisites. Each participating student will enroll in TWO courses: a 3-credit course of their choice, and the 1-credit Honors SuperStudio course.**

For more information, contact Dr. Paul Heilker at [pheilker@vt.edu](mailto:pheilker@vt.edu)
